**REPORTS AND RECOMMENDATIONS OF THE SUPERINTENDENT**

In a memorandum dated March 13, 2017, Dr. Zielinski provided information on safety drills that the District, along with the Police and Fire Departments of the three towns coordinate throughout the school year to ensure a safe environment for students and staff members. Also provided was a letter from Norfolk Police Chief Stone outlining the relationship between schools and security officials and programs that are currently offered.

Discussion ensued on the protocol for K-9 searches in the buildings and in the parking lots. Mr. Francomano thanked Dr. Zielinski for sharing this information. He suggested that the District be upfront with parents at the beginning of the school year and at open houses, etc. Then parents can reinforce it with their children. Information about these searches are in the student handbook and is signed off by parents and students when they obtain a parking space.

Mr. Gee commented that one of the challenges when things happen in schools is that social media gets the information when an event occurs. Students text the information out before school officials have a chance to reach out to the community.

UNFINISHED BUSINESS:
**FY18 Budget Update:**
In a memorandum dated March 17, 2017, Mr. Caliento reviewed the FY17 Line Item Budget Projections, including expenditures and encumbrances through March 16, 2017. He will update this report every 2 weeks through the end of the year.

Discussion ensued on whether there is a protocol in place to determine which items on the warrant are essential, referencing the spending freeze that has been in place for 4-5 months. Mr. Caliento said that all contractually based, and utility charges are being paid - discretionary spending and repairs are being reviewed to determine if they are necessary.

Dr. Zielinski suggested that perhaps Mr. Caliento could create a cover page to help identify each expenditure. Dr. Zielinski reviewed the purchase order review process with the first approval being the building principal.

Mr. Francomano questioned how many purchases have been denied in the last three months. Mr. Caliento stated that he didn’t have a number, and that many of the requests he sees, such as a recent electrical repair, are obvious necessities. Scrutiny happens before a request gets to him as requests are reviewed by building principals, head custodians, or the head grounds keeper prior to getting to the business office. Dr. Gilson stated that they are approving predominantly are custodial issues. Dr. Zielinski recommended that a summation page be provided for each warrant and group them into sections (payroll, maintenance, utilities).

Mrs. McEntee asked about the predicted $100K budget surplus; money allocated for the previously approved POS system will come from this budget. Mr. Caliento stated that this will affect to E&D.

Mr. Francomano: We discussed the budget in Finance Subcommittee, we still have some very serious concerns where the numbers are with respect to how the towns are going to be able to support the level services budget. One of the things that has been demonstrated in the past couple of weeks and in social media, is that parents want to be part of the process. We were made aware that members of the governing bodies of the 3 towns (selectmen, finance and town administrators) are scheduled to meet this week to discuss the KP budget. We have not received an invitation to this meeting.

Mr. Francomano continued: We have worked to make the budget process a collaborative one. This is a closed meeting and I don’t know what the purpose is or why is the school committee and the superintendent are being excluded. This concerns me. If we did not bring this up here we would be remiss. We were told of an to discuss the KP budget behind closed doors and the school committee, superintendent and parents were not included.

Mr. Francomano sent an email to the Plainville Board of Selectmen as a private citizen. King Philip still has not received an invitation to this meeting.

**Excess & Deficiency Update:**
Dr. Zielinski in a memorandum dated March 8, 2017 explained the fund balance reconciliation. The issue has been a prepayment made to Norfolk County Retirement in 2016 for FY2017. Excess & Deficiency cannot cross over fiscal years. To rectify this MDOR reduced KP’s E&D certified amount by the amount of the payment. At the end of FY17 that money will go back into E&D fund.

King Philip has been utilizing E&D funds for a variety of reasons including capital improvements (septic system, lighting retrofit, MS water system or one time amounts of money). In trying to help the towns out, or a lower assessment, we have also applied E&D to the operating budget. E&D balance cannot exceed 5% of the operating budget.

The district projects that the E&D balance will be $573,544 on June 30, 2017 but the total will not be firm until it is certified.

**Superintendent’s Successor Contract:** To be discussed in Executive Session.
School Committee Self-Evaluation:

The consensus of the Committee was to review each question and discuss any unsatisfactory or unacceptable answers.

Question 2: Governance:
There were 2 Unsatisfactory responses on Statement 2. Discussion ensued on the need to look at a better method of evaluating progress relative to the goals and objectives and whether the MASC has any guidance.

Question 3 – Operations:
There was 1 Unsatisfactory on Statement 3. New members receive introductory training and orientation form the KPRSC, including a member mentor, when they join the committee. Discussion ensued that as we look at goal setting this would be a perfect goal. Mr. Gee asked if there a mentor policy and procedure? Charting the Course is offered through MASC and the superintendent meets with all new members. Mrs. McEntee noted that in Plainville, the new person meets with each principal, business manager, superintendent and special education director. Mrs. Tonelli noted that discussing the budget with the Director of Finance was very important.

Q4 – Member Relations:
The Committee feels strongly that the members are a professional group and respect each other.

Q5 – Committee/Superintendent Relations:
There was 1 Unacceptable to Statement 5: The superintendent informs the committee of major personnel decisions. There was 1 Unsatisfactory to Statement 7: Both the Committee and the superintendent operate on a “no surprises” model. Mrs. Desrochers noted that there was also an exceptional indicating that the superintendent is always accessible.

Q6 – Strategic Planning:
There was 1 Unsatisfactory to Statement 1: A long-term strategic plan exists and is regularly reviewed. Discussion ensued on constantly reacting to tight budgets rather than trying to forecast out several years of needs.

Mrs. Martin: we have attempted that in the past, we want to do this. Mrs. McEntee: Forecast it out for a few years and if it requires an override, then it requires an override. Mr. Francomano: Need a program plan in place as the objective. We do wonderful things while keeping our heads above water, but when you think of what we could be doing.

Q7 - Community Relations:
Mrs. Tonelli noted the comment in the Comment section.

Q8 – Conduct of Meetings:
There were 2 Unsatisfactory ratings in this category. Referring to long meetings with lengthy agendas, difficult to address. Mrs. McEntee suggested minimizing the consent agenda and communication; pinpoint visitors and topics. Mr. Francomano suggested having the 1st meeting dedicated to certain topics and 2nd meeting to other topics.

NEW BUSINESS:

Superintendent Evaluation:
Dr. Zielinski explained that her goal was to have it done today. She is hoping to have the evaluation distributed by Friday and members will be given several weeks to complete it. Members who are leaving the Committee in April (Mrs. Martin and Mrs. Desrochers) are asked to complete the evaluation prior to the election.
