NEW BUSINESS (TAKEN OUT OF ORDER):
FY16 Independent Audit Report: Mr. Connor, Mr. Lynch and Mr. Meichelbeck

The FY16 End of Year Summary report dated April 3, 2017 was presented by Mr. Connor and reviewed with the Committee.

Mr. Connor presented to the School Committee the 2016 Independent Audit. Mr. Connor indicated that the Audit’s primary purpose is to express opinion on District's financial statements. The audit was conducted in accordance with Government Auditing Standards (GAS) and requires issuance of Independent Auditor's Report on Internal Controls over Financial Reporting and Other Matters which could have a direct and material effect on the financial statements and not expressing an opinion on internal controls. Mr. Connor reported that no material weaknesses or significant deficiencies were reported as a result of audit procedures, surrounding financial statements (financial reporting), and no material noncompliance were reported as a result of audit procedures for 2016.

Mr. Francomano asked if other districts are considering bond ratings in relation to funding the OPEB liability. Mr. O'Connor responded that some districts have a plan, and no one is fully funding it and that they are following the plan and not changing year to year, or looking at stability. Some regional districts are putting aside $10,000 per year in OPEB and larger districts not putting in anything.

Mr. Francomano noted that he is extremely concerned about the comments that are raised in the management letter. Specifically, the number of comments that are recurring that we have not responded to, along with questions and concerns about how serious each of these recommendations are. Mr. Francomano requested that Mr. Connor review each recommendation and potential action needed to improve.

Mr. O'Connor noted that the timing of the audit report was extremely late—well into the current fiscal year—so that the district has already addressed some of them. Mr. Connor informed the School Committee that the district has implemented corrective action on warrants and PayPal receipts through the treasurer. The comment about the treatment of lighting and sound technicians from the prior year’s (FY 15) audit management report has also been addressed.

Mr. Francomano asked if there are model procedures and processes and what should we be doing to satisfy the auditors. Mr. O’Connor indicated that in the municipal world, formalized procedures are lacking with the changing audit standards. A formalized procedure would need to be implemented for a complete year or more. Account set-ups cannot be changed quickly. Under auditing standards the auditors are required to report a deficiency, but nothing reported in this management letter rises to that level.

Mr. Francomano commented he is concerned that we are not addressing these things and getting them done. Mr. Connor indicated that changes have been made in prior year management year. Mr. Lynch said that discrepancies would be reported in that report, and would be brought to the attention of management and management is addressing them, issues in the FY16 audit have been addressed for FY17.

Mr. Conner commented that in applying auditing standards and accounting standards they are expressing an opinion on financial statements in their management letter. Mr. Conner noted an example of the student activities account where only original receipts should be used and not photo copies.

Mr. Francomano said that we have had many of these recommendations since last year and the most recent report since February; he asked the administration what have we done, what are we doing, and when will we be fully compliant? Dr. Zielinski explained that Mr. Caliento has put a plan together and some of the recommendations and processes have been implemented. We have adopted a new policy on student activities. Mrs. McEntee indicated that this policy change does not address the audit.

Discussion ensued on the use PayPal and the process through this system to refund parents’ athletic fees if their child does not make the team. The concern was providing parents with an immediate refund which does not comply with auditing standards and the requirement to go through the warrant process. Mr. Meichelbeck reviewed the PayPal process and noted...
that the warrant process is a slower process that doesn’t meet the immediate refund need. When a refund is to be issued
the treasurer is notified in writing, and then authorizes the transfer/refund through PayPal.

Mr. Francomano questioned if that process goes against what the auditors say and emphasized the need to follow the
statute. Mr. Francomano suggested that you indicate that on a form to make it clear what the expectation are for refunds.
Mrs. Tonelli suggested that perhaps wait for tryouts to be over to see if you child makes the team and then pay? Discussions
ensued that payment for a child making the team may not be made in time and created a new collection issue.
Mr. Francomano asked that we look at the recommendations and get provide a report on how the management letter
suggestions will be addressed at the next meeting.

Mr. Caliento indicated that Mr. Meichelbeck, Regional Treasurer and Mr. Caliento discuss these issues weekly and
constantly review the process on how to improve the process.

An example provided by Mr. Caliento was that on the student activity accounts and scholarships, the school committee is
seeing them with the bills. Joe reconciles that with the bookkeepers in the buildings. He suggested that we break out
scholarships into specific scholarship funds. Mr. Meichelbeck indicated the process in which the scholarships are currently
entered and that the software is outdated. It would cost a substantial sum to update the software and we decided against
that. They will review the auditors recommend best practices. Mr. Caliento said he is talking with Infinite Visions to see if
the accounting system can breakout with each fund. We currently keep separate side journals and spreadsheets with the
journal entries and control sheets. This shows the auditors how we keep track of these funds.

Discussion ensued on electronically signing warrants. Mr. O’Connor said that he has not seen any existing clients yet
signing electronically and suggested discussing this with legal counsel and making it fit with MGL. Mrs. Martin suggested
that Dr. Zielinski check with attorney as there was a question within the past 6 years on electronic signatures. This topic will
be discussed in Finance Subcommittee and with the full Committee in May.

Discussion ensued with reimbursements made to KPMA. Mrs. Snead indicated that a donation is made to the district and
then the program reimbursements are made at the end of the year. Mrs. Wolf indicated that the KPMA pays the expenses
throughout the year and then ask for reimbursement from the District.

A Motion was made by Mr. Francomano, seconded by Mrs. Desrochers, to accept the FY16 Independent
Audit Report as presented. All in favor.

Mrs. McEntee asked that the Committee see an update in May 2017 along with a report as to where we stand.

Unfinished Business (Taken out of Order):

Gary Lombard Baseball Field Dedication: Mr. Rice
In a memorandum dated April 3, 2017, from Messrs. Rice, Plympton and Weir, information was presented with regard to

UNFINISHED BUSINESS (continued):
FY18 Budget Update:
In a memorandum dated April 3, 2017, Dr. Zielinski presented a two-tier reduction ladder: Dr. Zielinski reviewed the impact of the budget cuts indicating that tier one reductions show changes to the approved level service budget through cost savings, deferment of expenses to anticipated receipt of E&D which is only possible with School Committee approval and the reduction of two administrative positions and a teacher through attrition will have an impact on the district’s ability to function and will impact the district. Tier two reductions have a critical impact on the education programming that has been developed at King Philip.
The memorandum also includes specific reductions for the high school, which includes the elimination of funding for music lessons, the elimination of funding for DECA state level competitions, and reductions in the technology department, and how each of these reductions would impact the District.

Discussion ensued on the PC Refresh Plan for the technology department. Mr. Chalmers asked what is the difference between Windows 7 vs 8. Mr. Bois indicated that he would never move to 8 and would rather move to Windows 10, as it is smoother and runs better on equipment and more feasible.

Mr. Francomano suggested that for purposes of the PC refresh Plan, we need to demonstrate what is happening because some people need to see a demonstration on the equipment failure. Mr. Bois suggested talking to teachers and have them explain their frustrations, and also talk to the students.

Discussion on BYOD (bring your own devices): we need to provide that technology in the classroom and there is equipment that we can loan out to students. Teachers need to decide which direction they want to go in i.e. chrome books or google apps and its compatibility.

Discussion on the number of nurses within the district and their caseload. Does the district have liability due to medical coverage? Mrs. McEntee suggested that the district could hire LPN instead of an RN. Dr. Zielinski noted that the state recommended ratio per nurse is 1-700 students and we are well over that. With reference to SBIRT, in place of a nurse, would you look at the guidance counselors to cover intervention services?

Dr. Zielinski explained that critical level reductions will have a direct impact on students and student programming. There are unknowns on the governor’s budget. The School Committee has a strong voice on regional transportation as it is not 100% funded. She suggested continued lobbying of our legislatures to increase budgeting regional transportation.

Mr. Francomano asked what percentage did we receive last year from state aid on transportation?

Mr. Francomano noted that for Music Lessons and DECA, neither of those cuts will occur unless we officially vote a program of studies change and also on the deferment. He indicated that on music lessons and DECA, he will have a hard time to voting in favor of a program of studies change for courses that will be debilitated and 2 of our showcase programs. Mr. Francomano asked for an explanation of DECA from Mr. Dow as the change is understated by Dr. Mobley and he would want to hear from Mr. Dow that elimination of the state requirement. Mr. Francomano thinks the elimination of this funding will impact the DECA program that is a significant learning experience overall.

Mrs. Martin, agreed that that is devastating on DECA. Everything on this list is devastating, if we have to get to the critical level.

Mr. Gee noted in addition to DECA and music that there are also would be program of studies changes required if the 4 AP courses on the reduction ladder were to be eliminated.

Mr. Francomano said that the Finance Subcommittee will be meeting with the 3 towns on April 10. Based on the meeting that Dr. Zielinski and he attended a couple of weeks ago, at what point do the budget cuts reach the critical level? We need to get a consensus that Level 1 we can live with; however, Level 2 is not something we an advocate.

Discussion ensued on whether students have already picked their courses for next year and Dr. Mobley ran a “ghost” schedule with core and elective courses. Mr. Francomano suggested that Dr. Zielinski and Dr. Gilson work on a demonstration on the impact of budget implications.

**Superintendent’s Successor Contract:**
To be discussed in Executive Session.

**Superintendent’s Evaluation:**
Dr. Zielinski indicated that an email has been sent to all School Committee members’ KP account and to please access it that way. The survey will be open for 2 weeks. Mrs. Martin and Mrs. Desrochers will be able to open the survey and complete it following the election results this evening.

**Unit C 2017/2018 Paid Holiday Calendars - (12-month and 10-month) 2nd reading:**
