

Dear Parents & Guardians,

It has been a real pleasure to teach and get to know your children! They have shown real improvement and I am excited about their future development. As we continue to work to hone their language skills in class, I recognize that what they do outside of class is just as important. Any help/support you can give would be greatly appreciated!

Below I have outlined the Goals of the course. I have also included some strategies we can use to help them to achieve these Goals. On the other side of this letter there is space for your input. Please feel free to comment and/or offer feedback. A copy of this letter will be posted on our Fusion Class page so that you may refer to it in the future. I look forward to hearing from you!

Wishing you all of the best,  
Julianna Fernández

Goals of the course:

1. Students will become proficient in all 4 skills (listening, reading, writing, speaking)
2. Students will be prepared for the next level (next year, college level language)
3. Students will “have fun” :)

Strategies to achieve our Goals:

1. Do the best you can, every day. This includes being prepared for class and actively participating.
2. Use the target language at all times (this may mean using 1-2 words and using gestures)
3. Do your homework, follow directions, and use models when they are provided.
4. Have a positive attitude, keep working hard, you will improve!
5. Take ownership of your learning. If you need help, ask for it. If you miss a quiz or test, please come make it up!
