

MRC Student Script

You need the student's diagnoses available and s/he needs their SSN. Make sure if s/he has it written down that he keeps it secure!

The script looks like this:

Hi, is Ashley Self available?

Hi Ashley, my name is _____ and I am a student (senior) at King Philip High School. I would like to refer myself for services.

If asked, "what services were you looking for?", answer any mix of the following:

1. I would like help figuring out what jobs are best for me, help with a resume, and help finding a job".
2. I am interested in the paid summer volunteer/internship opportunity that you offer for the month of July.
- 3.

Then it is important to listen to next steps and help the student make note of those steps. The parents **NEED to watch for a letter** in the next couple of months indicating when his/her appointment will be. Otherwise, if they are nonresponsive, the case gets dropped!
