PREFACE

Quick Book of Assessments

This guide will provide technical assistance to school districts and/or agencies that provide special education or special education and related services to youth with disabilities.

It is helpful to think in terms of what your student's peers are doing at this age, how they are dreaming and planning for their lives after high school, and then attempt to help students with disabilities seek out activities to help them look at their dreams and goals as well.

Just like students without disabilities, students with disabilities, now have many options to explore and many adult service providers to choose who they may receive services from.

When students with disabilities leave special education, the school will no longer provide services. Assistance may be provided by several different agencies serving adults. This is a big change. Families are confronted with a maze of public and private agencies in the community.

Application procedures, funding sources, and eligibility requirements differ for each agency. For students and their families to learn about agencies and to help students acquire the skills they will need, transition planning must begin at age 16 or earlier if determined appropriate. Transition planning is a lifeline to adulthood.

The Individual Education Program (IEP) is designed to help the student begin thinking of where they may want to work and live (with supports as needed) 3 to 5 years following high school. It also has five areas of transition that lead us to a well rounded life. These areas are: employment, independent living, community participation, post secondary training and adult service connections. Short-term goals are established in each of these areas that directly relate to the students' long term goals. Using this methodology, students can decide if their long-term goals are attainable or desired, and this provides an opportunity for them to alter their goals or to reach their goals through careful planning.

If the student will turn age 16 during the year that the IEP is being implemented, the transition plan must be written at age 15, or an additional IEP must be developed with transition planning at the time the student turns 16. The initial transition plan generally focuses on the student's course of study, until age 16. At that time more extensive community connections are coordinated.

Requirements that make a difference!

Before looking at the following assessments in this guide, keep in mind the following requirements!

1. **What are the requirements regarding consideration of the student's "preferences and interests" when developing the transition services for the IEP? How are the student's preferences and interests determined?**

The student must have the opportunity to indicate his or her preferences and interests during the IEP meeting when transition services are being considered. If the student does not attend the IEP meeting when transition services are discussed, the district must ensure that the student's interests and preferences are considered during the development of the statement of needed transition services. To accomplish this, the school district may use checklists and other relevant self assessments including personal interviews and situational assessments. Family members and peers could also provide information to assist in determining a student's preferences and interests.

2. **If a student does not attend the IEP meeting, what steps should the district take to ensure that the student's preferences and interests are considered?**

Neither P.L.105-17 nor P.L.101-476 Regulations prescribe the steps required. However, the best practice suggest that if a student does not plan to attend the meeting, the school district may consider the other methods for obtaining student input prior to the meeting such as: student conferences and inventories, family conferences and inventories, career exploration activities, vocational interest and aptitude inventories, situational assessments, and input from peers and other persons who know the student. It is required that the student's interests and preferences are considered during development of the statement of needed transition services.

3. **Every IEP must include:**

- ☐ -a statement of the child's present levels of educational performance (including how the disability affects involvement and progress in the general curriculum)
- ☐ -a statement of measurable annual goals including measurable benchmarks or short-term objectives
- ☐ -a statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child

- ☐ -an explanation of the extent, if any, to which the child will not participate with non disabled children in the regular class and extracurricular activities
- ☐ -a statement of any individual modifications in the administration of State or district wide assessments of student achievement that are needed in order for the child to participate in such assessment. If the IEP team determines that the child will not participate in such assessments, a statement of why that assessment is not appropriate for the child and how the child will be assessed.
- ☐ -a projected date for beginning of services and modifications, and anticipated frequency, location, and duration of the services
- ☐ -beginning at age 16, and updated annually, a statement of the transition service needs of the child that focuses on the child's courses of study (such as participation in advanced placement courses or a vocational education program)
- ☐ -beginning at age 16 (or younger, if determined appropriate by the IEP team), a statement of needed transition services for the child, including, when appropriate, a statement of the interagency responsibilities or any needed linkages
- ☐ -beginning at least one year before the child reaches the age of majority under State law, a statement that the child has been informed of his or her rights under this title, if any, that will transfer to the child on reaching the age of majority, a statement of how the child's progress toward annual goals will be measured, how the children's parents will regularly be informed of progress toward the annual goals and the extent to which that progress is sufficient to enable the child to achieve them by the end of the year.

Transitions Assessment

by Gary M. Clark, EdD

What do we need to know about students and why?

Most professionals in special education have a general understanding of the term *assessment*. The main question in using the term *transition assessment* is whether or not there is an understanding of the term *transition*. Since the mid-1980s, when the word first became popular, writers have attempted to define it, explain it, and shape it. These definitions and explanations are important in communicating not only with one another in the field, but also with the students and families with whom we work and with others outside the field.

If we let federal initiatives, legislation, or definitions shape our understanding of the word transition, we may allow those terms to limit our thinking about assessment. For example, professionals in early childhood special education actually staked a claim to the term transition in 1989 when the Education of the Handicapped Act Amendments of 1986 (P.L. 99-457) required that a transition plan be developed by age 3 for all children being served in early childhood programs as specified in Part H (now Part C) of the act. This transition plan was intended to facilitate the planning for interagency linkages between providers of special services of young children (ages 0-3) and Part B public school providers of young children (ages 3-5). Naturally, if early childhood advocates view this specific transition as *the* transition rather than as one of many important transitions, it is likely that their definition of transition assessment will relate only to this transition.

Similarly, when secondary school professionals want to define transition only in terms of school to work (or careers), school to postsecondary education, or school to adult community living, they limit themselves as well. With such a narrow view of transition, assessment policies and procedures will reflect a similarly narrow perspective. We ask the questions, we are interested in as they relate to the primary outcomes we consider in the targeted environment or setting for the transition process.

Defining transition in relation to a developmental age or level is not wrong, however, if it is clear that each developmental definition is legitimate and that all life transitions are important. From this broader perspective, transition assessment may be better described as *transitions assessments*, and explained as *appropriate multiple assessments for particular multiple transitions throughout life*.

Unfortunately, limiting a definition of transition to a developmental stage is not the only way we have limited our concept of transition. When the term *transition* began to be popular in the mid 1980's, transition planning and service initiatives were directed most aggressively toward populations with severe disabilities; even by 2005, some high school programs for students with moderate to severe disabilities were still labeled "transition" programs. By implication, this naming convention has led to a distinction between these "transition" programs and other educational programs and services provided to all other students with disabilities. Because most of these early programs

were community-based employment programs, school-based and traditional academic programs for other disability groups were not perceived as being related to transition. This was, and is, an unfortunate distinction, because it makes the acceptance of the broader idea of transition programming more difficult (Halpern, 1985; Sitlington & Clark, 2006).

How can assessment for lifelong transitions be defined in a way that embraces all age and developmental levels as well as all types and severity levels of disabilities? To frame discussion in this book and to present a point of view to advocates of transition, I offer the following working definition of transitions assessment:

Transitions assessment is a process of obtaining, organizing and using information to assist all individuals with disabilities of all ages and their families in making all critical transitions in those individuals' lives both successful and satisfying.

Patton and Dunn (1998) proposed that there are both vertical and horizontal transition events in each person's life. Vertical transition events refer to age and developmental events or benchmarks in life through which most people go—infant to toddler, toddler to elementary school-age child, elementary-school-age child to preadolescent, and so on up through old age. Most of these transition events are anticipated, natural life events. Horizontal transition events refer to change events that occur within any one of the vertical transition stages, and which require some adjustments. Some of these events are deliberately created or chosen (e.g., moving to another location, taking a certain job, going to college, getting married). Other events are unexpected or "forced" on individuals by chance or external circumstances (e.g., death, divorce, illness, accidents). For example, a toddler with a disability may need to make the horizontal transition from being an only child to being a sibling; a preadolescent would need to make a horizontal transition if the parents divorce or the family moves; an adolescent would need to make major horizontal transitions in life goals if he or she has a permanently disabling traumatic head injury; an adult would need to make a horizontal transition from employment to unemployment if he or she is laid off.

In vertical as well as horizontal transitions, what is considered successful or satisfying depends upon an individual's goals and the extent to which those goals are achieved. Most individuals feel successful in some transition event (e.g., new job, new role, new status) if they have achieved their prior goals related to that event or if they are satisfied with the process, the outcomes, or both. Good transitions assessment addresses each individual's goals and expectations for a transition period or event. Good transitions assessment also suggests planning areas, preparation needs, or decision making that would increase the likelihood of achieving and being satisfied with those goals and expectations. In other words, using the definition above, vertical and horizontal transitions assessment should help individuals and their families define goals for all of the individual's transition needs across the life span.

At or before age 16, school staff are required to invite potential adult service providers to student IEP meetings. The IEP must also include a statement of interagency responsibilities or any needed linkages.

Please check which adult services you feel this student may need now or continue to benefit from following completion of secondary services. Discuss results at student's IEP meeting.

_____ **Division of Vocational Rehabilitation (DVR).** DVR funds the "Project Skills" program, a paid work experience program available for students age 16 and older who qualify. DVR assists individuals with physical or mental disabilities to obtain employment and live independently. Services may include: counseling, training, job placement and more.

_____ **Service to the Blind and Visually Impaired (SBVI).** Can offer services to individuals who have blindness or a visual impairment, such as adjustment to blindness training, rehabilitation counseling, assistance in finding and keeping a job, tools and supplies needed to reach goals, vocational training, post-secondary preparation, assistive technology, and more.

_____ **Social Security Administration.** Manages two different disability programs – SSDI and SSI. Both programs provide a monthly income for people with disabilities, but the rules that affect eligibility for them are different.

_____ **Centers for Independent Living.** Staff at several Centers located throughout the state could assist in these areas: housing, community resources, independent living skills, peer support, employment, self-advocacy, personal safety, individual rights, and attendant management.

_____ **Mental Health Centers.** Provide a full range of mental health services, including: emergency care, evaluations, case management, consultation, and outpatient care.

_____ **One-Stop Career Centers/Career Learning Centers.** Can provide job listings and help with making applications and employer contacts.

_____ **Assistive Technology.** DakotaLink has four centers around the state that can provide assistance to individuals of all ages to help locate, acquire and use the latest available assistive devices that best meet the need to maintain independence at home, work, classroom or in leisure activities.

_____ **Adjustment Training Centers (ATC).** ATC's are located throughout the state and provide day and/or residential services to individuals with developmental disabilities, primarily age 16 and older. Services include: community living training, home/community based services, follow-along services, pre-vocational and vocational training.

_____ **Advocacy Services.** S.D. Advocacy Services provides services such as information and referral, advocates, client assistance program for adults with disabilities, self-advocacy training and more.

_____ **Resource Coordinator.** The Division of Developmental Disabilities employs statewide Resource Coordinators to assist individuals with developmental disabilities and their families in accessing services.

_____ **Health service providers.** Can be provided by public health nurses or other health care providers depending on individual student needs.

_____ **Post –Secondary Schools.** Post-secondary education can be pursued through avenues such as public or private colleges, universities, community colleges, technical colleges, and business and traditional schools. Post-secondary schools have staff specifically assigned to counsel students with disabilities.

_____ **Employers.** Can offer job sites for work-based learning, Project Skills program, or provide information on what work habits and skill levels are needed for certain kinds of work.

_____ **Legal Guardianship.** The S.D. Guardianship Program provides professional guardianship, conservatorship, and related protective services for adults with disabilities. Other services include: consultation, estate planning assistance, information/resources, future planning, and trustee services.

_____ **Easter Seals.** Serves persons with disabilities of all ages across the state. Family services provided include: medical equipment loan, equipment matches, wheelchair clinics, hearing aid lending, AgrAbility, and more.

_____ **Communication Services for the Deaf (CSD).** Serves deaf and hard-of-hearing people in South Dakota. Some services provided include: interpreting, advocacy and consultation, employment services, communication equipment, independent living, mentoring and more.

At or before age 16, school staff are required to invite potential adult service providers to student IEP meetings. The IEP must also include a statement of interagency responsibilities or any needed linkages.

Please check which adult services you feel your son/daughter may need now or continue to benefit from following completion of secondary services. Discuss results at their IEP meeting.

_____ **Division of Vocational Rehabilitation (DVR).** DVR funds the “Project Skills” program, a paid work experience program available for students age 16 and older who qualify. DVR assists individuals with physical or mental disabilities to obtain employment and live independently. Services may include: counseling, training, job placement and more.

_____ **Service to the Blind and Visually Impaired (SBVI).** Can offer services to individuals who have blindness or a visual impairment, such as adjustment to blindness training, rehabilitation counseling, assistance in finding and keeping a job, tools and supplies needed to reach goals, vocational training, post-secondary preparation, assistive technology, and more.

_____ **Social Security Administration.** Manages two different disability programs – SSDI and SSI. Both programs provide a monthly income for people with disabilities, but the rules that affect eligibility for them are different.

_____ **Centers for Independent Living.** Staff at several Centers located throughout the state could assist in these areas: housing, community resources, independent living skills, peer support, employment, self-advocacy, personal safety, individual rights, and attendant management.

_____ **Mental Health Centers.** Provide a full range of mental health services, including: emergency care, evaluations, case management, consultation, and outpatient care.

_____ **One-Stop Career Centers/Career Learning Centers.** Can provide job listings and help with making applications and employer contacts.

_____ **Assistive Technology.** DakotaLink has four centers around the state that can provide assistance to individuals of all ages to help locate, acquire and use the latest available assistive devices that best meet the need to maintain independence at home, work, classroom or in leisure activities.

_____ **Adjustment Training Centers (ATC).** ATC's are located throughout the state and provide day and/or residential services to individuals with developmental disabilities, primarily age 16 and older. Services include: community living training, home/community based services, follow-along services, pre-vocational and vocational training.

_____ **Advocacy Services.** S.D. Advocacy Services provides services such as information and referral, advocates, client assistance program for adults with disabilities, self-advocacy training and more.

_____ **Resource Coordinator.** The Division of Developmental Disabilities employs statewide Resource Coordinators to assist individuals with developmental disabilities and their families in accessing services.

_____ **Health service providers.** Can be provided by public health nurses or other health care providers depending on individual student needs.

_____ **Post-Secondary Schools.** Post-secondary education can be pursued through avenues such as public or private colleges, universities, community colleges, technical colleges, and business and traditional schools. Post-secondary schools have staff specifically assigned to counsel students with disabilities.

_____ **Employers.** Can offer job sites for work-based learning, Project Skills program, or provide information on what work habits and skill levels are needed for certain kinds of work.

_____ **Legal Guardianship.** The S.D. Guardianship Program provides professional guardianship, conservatorship, and related protective services for adults with disabilities. Other services include: consultation, estate planning assistance, information/resources, future planning, and trustee services.

_____ **Easter Seals.** Serves persons with disabilities of all ages across the state. Family services provided include: medical equipment loan, equipment matches, wheelchair clinics, hearing aid lending, AgriAbility, and more.

_____ **Communication Services for the Deaf (CSD).** Serves deaf and hard-of-hearing people in South Dakota. Some services provided include: interpreting, advocacy and consultation, employment services, communication equipment, independent living, mentoring and more.

**Ask school staff to provide you with contact names/phone numbers for any of the above listed resources. A complete listing of these resources is also available through the "Resource Guide for People with Disabilities", developed and distributed by Center for Disabilities. Please note: Transition Planning to Next Grade Level

Extra planning and support are necessary for most students to make a successful transition to the next grade level. Often times the receiving teacher has to depend on informal contact with the sending teacher, casual observations, and documentation in order to gain information about their next students. A more formal approach is necessary for students who need adaptations in goals, methods, or approaches in order to ensure their success. Planning for a successful transition of a student is basically a process of sharing information effectively and efficiently.

The student's planning TEAM will want to include the receiving classroom teacher in the transition planning. The team may also want to include the student and friends/classmates, if appropriate.

It is important to start early enough so that all team members have enough time to convey the information that is necessary. The receiving teacher can spend time observing the student in his or her current classroom. The student could visit the receiving teacher's class.

Investing time in the transition process will ensure that the educational gains made over the school year are maintained and built upon the following year.

Things to Consider:

Learning Characteristics

- ◆ What is the student's learning style?
- ◆ What is the student's learning rate?

Instructional Approaches/Styles of Interaction

- ◆ What types of instructional approaches seem most successful?
- ◆ Are there particular styles of interaction which are best suited to the student?

Physical Setting

- ◆ Does the student need physical support in seating?
- ◆ Does the room arrangement need to be modified to accommodate any equipment the student may use?

Interests and Motivations

- ◆ What gets the student excited?
- ◆ What are the student's hobbies?

Communication

- ◆ How does the student communicate?
- ◆ Is the student able to express their needs?

Friendships/Social Skills

- ◆ Will any of the student's friends be moving on with the student?

	<ul style="list-style-type: none"> ◆ Does the student make friends easily? ◆ How does the student interact socially?
Parent/Professional Partnerships	<ul style="list-style-type: none"> ◆ How much involvement does the parent/care giver prefer to have? ◆ What form does parent/school communication take and what is the frequency? (i.e. daily notebook, weekly phone calls?)
Achievement in Different Curricular Areas	<ul style="list-style-type: none"> ◆ Reading ◆ Writing ◆ Math ◆ Content Areas ◆ Special Area Classes
Functional Routines	<ul style="list-style-type: none"> ◆ Self-help skills ◆ School jobs ◆ Free-time skills ◆ Community skills
Other School Routines	<ul style="list-style-type: none"> ◆ Concerns about the bus or walking/wheeling to school ◆ Breakfast program ◆ Lunch ◆ Extracurricular activities/participation ◆ Recess ◆ Transitions between activities
Health/Safety Concerns	<ul style="list-style-type: none"> ◆ Medications ◆ Allergies ◆ Seizures
Equipment/Adaptations	<ul style="list-style-type: none"> ◆ Does the student use any material aids or adaptations (i.e., picture schedule, pencil grip, calculator, picture lists)? <ul style="list-style-type: none"> ○ Are testing modifications or adaptations needed?

Independent Living Assessment in regards to the Employment Goal (from DRS)

Consumer Name: _____

Date of Evaluation: _____

Employment Goal: _____

Instructions: This is an assessment that Division of Rehabilitation Services uses to assess some consumers. This assessment is intended to obtain a general overview of an individual's independent living situation. It is designed to review arrangements that may complement or cause potential barriers to obtaining or maintaining employment. Some individuals may need a more comprehensive assessment in areas such as personal attendant care or other areas. This assessment is not intended to replace other IL assessments. Answer each question with a narrative description to include strengths, weaknesses, and issues. Some of these questions can be answered by interviewing the individual while other questions can be best answered by observations. It is best to interview and observe the individual in their current living environment.

Living Situation:

1. What is the individual's current housing situation?
2. Would the individual's housing situation interfere with employment?
3. Does the individual have the means to obtain or make lunches/snacks?
4. Does the individual have children, if yes are adequate arrangements available?

Financial:

5. Does the individual have the means to adequately manage their pay check?
6. Can the individual use vending machines?
7. Does the individual have the ability to budget their finances?

Personal Appearance:

Billable time for Job Coaching and Follow Along Services for Provider
It will include any time directly related to a consumer's rehabilitation.

*** Units in Billable Time.**

These fee rates are for billable time only. Billable time for these services includes the time spent providing direct services for the client. Billable time can also include the time spent on travel as described below. Time spent in meetings, writing reports, and other non service activities are already part of the hourly costs and should not be duplicated.

**** Placement into Enclaves.**

A one time job placement package of \$612 is allowable when an enclave is initially developed and the DRS\SBVI client authorized for placement services is the first successful placement in the enclave. Additional placements and placements in an existing enclave would use the \$102 package rate.

***** Current Annual Wages** An incentive of \$111 will be paid if the individual's income at the time of the 26 closure, meets or exceeds the annual income of \$12,000.

COMPENSATION FOR TRAVEL

Costs for local travel is included in all fee rates. But to promote services in rural areas and compensate these additional costs, the following reimbursement procedure has been established:

- Reimbursement is allowable when authorized services are provided at a location of 20 miles out of city limits where the facility is located.
- Travel time will be reimbursed at a minimum of \$18/hr or 80% of the current fee rate, which ever is greater.
- Reimbursement must be authorized by the counselor prior to the start of services.

Reimbursement may include travel time and mileage. Travel time will be calculated from portal to portal. Mileage will to be paid in accordance with the rates and rules established by the South Dakota State Board of Finance Travel Regulations. For billing purposes, the number of hours worked, and odometer readings must be included in the report.

Situational Assessments

Situational assessments are essentially the observations of people performing work situations in real work settings. It involves a practice of observing, evaluating, and reporting over a period of time. During this assessment, a consumer's behavior and work performance in a job situation and interaction with other employees is observed. This type of evaluation helps the consumer learn the role of a worker and allows the evaluator to assess many more work behaviors than can be explored with standardized vocational testing approaches.

Requirements

For situational assessments to be effective, an appropriate work site must be utilized, adequate supervision provided and a means to gather information. Situational assessments funded by DRS and SBVI must include the following requirements:

1. Work site must be with a business in the community, not a segregated workshop.
2. Work site must be in the area of the consumer's interest and choice.
3. Work site must not be part of an enclave, mobile crew or other group models.
(These models should utilize Work Adjustment rates)
4. Consumer must perform the work duties as part of the assessment. Receiving a tour or observing a job is not considered part of a situational assessment.
5. Observations and comments will be recorded on a Situational Assessment report form DHS-347.

The amount of hours authorized needs to be individualized based upon the employment setting, difficulty of the job, individual's stamina and other potential factors. The billable time for a situational assessment is the actual amount of time the provider spends with the consumer at the job site or gathering information from the employer for input in assessment. Compensation for travel time is not paid unless the provider has to travel more than 20 miles out of city limits to provide the service. Report writing or meeting time is already included in the cost of the fee rate and should not be paid as billable time.

Incentive Fee Rate

Good situational assessments are developed specifically to meet the needs and interest of a consumer. At times good situational assessments will lead into permanent employment for a consumer. To help promote the development of innovative

assessments and quality services, a financial incentive of \$848 will be paid to a provider when all the following conditions are met:

1. The individual had an IPE with a specific vocational goal prior to starting the assessment;
2. The individual wants to continue working at the employment site of the situational assessment;
3. The employer offers a paid position with a definitive start date; and
4. The individual's case is a successful closure (26 closure as defined by DRS & SBVI).

This incentive pay can be authorized at the time of the situational assessment or prior to closing the consumer's case successfully rehabilitated.

Insurance Coverage

The most significant barrier to establish an employment site for a situational assessment is the employer's concern on insurance coverage. Enclosed is a copy of the insurance policy that has been purchased specifically for DRS & SBVI consumers participating in situational assessments. This policy will cover \$10,000 for medical expenses and \$5,000 for death benefits. Only DRS or SBVI consumers who are authorized for a situational assessment are covered under this policy. In the event a consumer gets injured or dies during a situational assessment, please contact the VR Counselor as soon as possible.

Situational Assessments are essentially the observations of people in work situations. It involves a practice of observing, evaluating, and reporting over a period of time. During this assessment, a consumer's behavior and work performance in a job situation with other employees is observed. Parent Letter **Examples**

Example #1

Dear Parent:

Transition Planning begins when your son or daughter turns 16 years old, or younger if appropriate. This simply means that we want to ensure that your son or daughter has the same learning opportunities as their non disabled classmates. Your child is learning and developing skills needed to live in the community and work in the community with supports as needed. Your child will leave the school system with dreams and high expectations. We will assist you and your child throughout these years in connecting up with community services to assist in this transition process.

We will be exploring interests and skills in the areas of work, independent living, community participation, adult service programs (community services), after high school work training/educational opportunities, and various assessments to assist us in identifying your child's interests and skills in these areas.

You could assist us in this process by letting us know your thoughts to the following questions...

1. What type of job has your child talked about doing when they grow up?
2. What kinds of things does your child like to do in their free time?
3. What topics does your child talk about at home?
4. Does your child have friends that he/she participates with on a weekly basis?
5. What kinds of tasks does your child do around the home to help out?
6. What kinds of community activities does your child participate in?
7. What would you like me to know about your child?
8. What do you hope your child learns this year?

Thank you for helping us get to know you and your child better! If you have any specific questions about transition planning please let me know.

Very Sincerely,

Example # 2

Dear _____

During the IEP meeting this year we will be trying something new -- Transition Planning. This is a process in which the IEP team will do long term planning. We will look at where the student is going and what skills and linkages to other agencies he/she needs. The goal is to work together to ensure that the student has the opportunity to gain employability, social, and living skills important to make the transition from school to work and community living. Not only are these foundation skills important for your child, but we are working to provide you with resources and information about adult services so your son's/daughter's transition after high school is as easy as possible.

For the school to work with you and other agencies in getting your child ready for the world of work, the following information would be helpful for transition planning.

Student Name _____

Other agencies involved with student either currently or projected after graduation.

When your student made a transition in the past, e.g. from one school to another, what were the problems encountered, if any.

I. Vocational Needs:

1. When your student graduates from public school would you like your student to participate in:

- _____ Supported Employment / Job Coach
- _____ Vocational School
- _____ Competitive Part-Time Employment
- _____ Competitive Full-Time Employment
- _____ College
- _____ Others

2. Which kind of jobs does your student seem interested in? _____

3. What kinds of jobs does he/she dislike? _____

4. Are there any medical concerns relating to your student placement. If so, what? _____
5. What skills do you think need to be developed to help your student reach his/her vocational goals? _____

6. What vocational classes would you like your student to be enrolled in? _____

7. What academic classes would your student need to prepare for future employment. _____

II. Personal Management / Living Arrangement

1. What duties or responsibilities does your student presently have at home? ____

2. What other duties would you like your student to be able to do at home?

3. Following graduation from the public school, what do you think your student's living situation will be? _____

Which of these independent living areas do you feel your student needs instruction in?

- _____ Clothing care
- _____ Meal preparation/nutrition
- _____ Hygiene/grooming
- _____ Transportation
- _____ Parenting
- _____ Household management
- _____ Consumer skills
- _____ Community awareness
- _____ Money management
- _____ Safety
- _____ Sex education
- _____ Health/First Aid
- _____ Others _____

III. Leisure/ Recreation Needs

1. What leisure/recreation activities does your student participate in when alone?

2. What leisure/recreation activities does your student participate in with your family?

3. What leisure/recreation activities does your student participate in with friends?

4. Are there any other leisure/recreation activities you would like your student to participate in? _____

5. Are there any leisure/recreation activities you do not want your student to participate in? _____

6. What classes/activities would you like your student to participate in to develop more leisure interest and skills? _____

IV. Financial

1. Will your student have:

- _____ earned income
- _____ insurance
- _____ food stamps
- _____ Supplemental Security Income (SSI)
- _____ unearned income
- _____ general public assistance
- _____ trust/will
- _____ other support

What would you like the school district staff to do to assist you in planning for your student's needs during high school and after graduation?

We will be contacting you before fall conference to set up a specific time to meet. Let us work together to ensure a smooth transition for your student.

Sincerely

The following is a Transition Assessment for Parents, a tool for transition at the IEP meeting.

ASSESSMENT FOR PARENTS

Dear Parent(s):

As your son or daughter moves closer to graduation, it is important to begin to plan for his/her future. At the next meeting we will develop a transition plan. The transition plan will identify future goals for your son/daughter and ways to support him/her in reaching these goals. We would all like to see all our students become productive members of society. Your input and involvement is critical. Please take a few minutes to complete this Transition Assessment. Think of your son/daughter as an adult after graduation and identify your dreams/goals for him/her.

C.I.T.E. Learning Styles Inventory – This tool may be photocopied

1. Major: The Student prefers this mode of learning, feels comfortable with it, and uses it for important learning. A student does not necessarily have one and only one preferred style.
2. Minor: The student uses this mode but usually as a second choice or in conjunction with other learning styles.
3. Negligible: The student prefers not to use this if other choices are available. The student does not feel comfortable with this style.

CITE Learning Styles

Visual Language:	I learn well from seeing words in books, on the chalkboard, or in workbooks. I remember and use information if I have read it.
Visual Numerical:	I have to see numbers on the board, in a book, or on paper to work with them. I am more likely to understand math facts if I have seen them.
Auditory Language:	I learn from hearing spoken words. I will be more capable of understanding and remembering information if I hear it.
Auditory Numerical:	I learn from hearing numbers and oral explanation. I may do as well without math books because written materials are not as important. I can probably compute problems in my head.
Tactile-Kinesthetic:	I learn best by experiencing—doing, self-involvement. I definitely need manipulation of material along with accompanying sights and sounds. I seem unable to understand or keep my mind on my work unless I am totally involved.
Social-Individual:	I get more work done alone. I think best and remember more when I learn by myself. I care more for my opinions than for the ideas of others.
Social-Group:	I strive to study in groups and I do not accomplish much individually. Group interaction increases my learning and subsequent fact recognition.
Expressiveness-Oral:	I easily tell you what I know. I speak fluently, comfortably, and precisely. I am not shy about giving reports or talking to the teacher or classmates.
Expressiveness-Written	I write fluently and qualify answers to convey my knowledge. I feel less comfortable perhaps even “stupid”, when giving oral answers. My thoughts are better organized on paper.

Study Habits **Questionnaire**

Name _____ Date _____

Study Habits Questionnaire

Circle the mark that shows how likely you are to use each method.

Not Likely Somewhat Likely Very Likely

1. You are given an assignment that requires using some resource materials (dictionary, encyclopedia, atlas, almanac, etc.). How likely are you to:

ask the librarian for help				
ask the learning disability specialist for help				
ask a parent for help				
ask a friend for help				
search on your own				

2. You have a very demanding schedule—a full class load and a part-time job.

How likely are you to:

aside a certain time each day set for studying				
study whenever you get the chance				
plan a study schedule each week, based on assignments				
study just on the night before tests				
study just enough to keep up				
write assignments on a calendar according to when they're due				

3. When preparing for and taking tests, how likely are you to:

wonder what will be on the test				
lose points for incomplete essay answers				
be confused by the directions				
panic before or during the test				
run out of time before completing the test				

Not Likely	Likely	Somewhat Likely	Very Likely
---------------	--------	--------------------	----------------

4. You have just started college. After buying a new textbook for a class, how likely are you to do the following before the first class begins:

page through the book and set it aside				
get started early by reading the first chapter				
look through the book at study questions, glossary, chapter headings, table of contents				
set the textbook aside until the class begins				

5. Some study habits are listed below. How likely are you to:

remember assignments for a specific class				
finish assignments without being reminded				
set aside time from other activities to study				
finish an assignment once you've started				
keep your materials together without losing them				
organize books and materials				

6. In a lecture class, how likely are you to find:

you didn't take enough notes				
you have gaps in your notes				
you have more notes than you need				
you can't write fast enough to keep up				
you can't understand your notes when you review them				

Accommodations **Questionnaire**

Name _____ Date _____

Accommodations Questionnaire

1. When you enter a post-secondary school, which services or accommodations might you need because of your learning disability? (Having a textbook taped is an example.)
- _____

Circle the mark that shows how likely you are to use each method.

Not Somewhat Very
Likely Likely Likely Likely

2. When you need extra help in a class, which of these are most likely to help you:

taped lectures				
extra time on assignments				
class notes				
taped textbooks				
using a word processor				
alternative tests/assignments				
asking questions during a lecture				
joining a study group				

3. When preparing for a test or exam, which of these accommodations would be most helpful to you:

asking for extra time on the test				
asking to take the test in another room				
asking to have the test read to you				
asking for writing assistance				
asking to read your answers into a tape recorder				

4. If you have reading difficulties, which of these are most likely to help you:

asking to have textbooks taped				
asking for someone to read to you				
asking for study guides				
asking for extra time to read				
enrolling in a reading skills class				

5. If you have writing difficulties, which of these are most likely to help you:

using a computer for word processing
asking for proofreading help
dictating written work to someone
asking to give oral rather than written reports
asking for a notetaker
tape recording lectures

6. If you have math difficulties, which of these are most likely to help you:

asking for extra explanations
listing steps of a process in your notes
setting up time to work alone with teacher
using graph paper
using a calculator

7. If you have trouble with organization, which of these are mostly likely to help you:

asking for a syllabus (course schedule) ahead of time
getting assignments ahead of time
keeping a calendar of assignments
breaking large assignments into parts

ACCOMMODATIONS CHECKLIST

Consideration of Special Factors

Is the student limited English proficient? Yes No

If the answer to this question is "yes", please explain the language needs of the student as these needs relate to the student's IEP.

Are there any special communication needs? Yes No

If the answer to this question is "yes", what direct instruction will be provided in the student's mode of communication?

Does the student require Braille? Yes No

If the answer to this question is "yes", what Braille services will be provided?

Does the student's general classroom behavior impede learning? Yes No

If yes, what strategies are required to appropriately address this behavior, including positive behavioral interventions and supports?

Assessment State and/or District-wide (Circle the form(s) of assessment that student will take.)

- ☐ Student will be taking the assessment without accommodations and/or modifications.
- ☐ Student will be taking the assessment with the accommodations and/or modifications identified on Page 5.
- ☐ Student will not be participating in the state and/or district-wide assessment for the following reasons: (Please justify.)
- ☐ Student not required to take district or statewide assessment at this grade level.

How will this student be assessed? (Please indicate the alternative assessment method that will be used. Required.)

MODIFICATIONS

Student Name _____ Date _____

Content Modification

- _____ Extra time to complete assignments and projects
- _____ Directions/instructions given orally and in writing
- _____ Long-range projects broken down into short-term (small) assignments
- _____ Provide multi-sensory, hands-on instructions or activities
- _____ Modify reading assignments
 - _____ Shortened length
 - _____ Adapted reading level
 - _____ Tape summary of reading material
- _____ Modify math assignments
 - _____ Shorten length
 - _____ Divide assignment into steps
 - _____ Give problems on appropriate level _____
- _____ Modify written assignments
 - _____ Shortened length and requirements
 - _____ Grammar, spelling, punctuation errors are noted but not evaluated
 - _____ Extra time to complete written assignments
 - _____ Allow someone to write answers for the student
 - _____ Provide alternatives such as oral presentation, drawings, tape recordings, etc.
- _____ Other modifications
 - _____ Provide a script/notes/study guide of lectures
 - _____ Supplemental visual materials
 - _____ Minimize memory demands
 - _____ Vocabulary list prior to lesson
 - _____ Repetition of explanation; practice

Environmental Modifications

- _____ Structures environment
- _____ Limited distractions
- _____ Consistent expectations and consequences
- _____ Preferential seating
- _____ Regular feedback and progress check
- _____ Utilize techniques to increase productivity
- _____ Other _____

CDE NEXT STEPS, Susan McAlown

Modification in Evaluation

- ☐ Extra time to complete tests, quizzes
- ☐ Tests given/taken orally or with reading assistance
- ☐ Allow to use notes/study guide/textbook on tests
- ☐ Daily work/participation evaluated in lieu of tests
- ☐ Modify tests
- ☐ Evaluate individually
- ☐ Grade based on potential instead of program standards
- ☐ Other _____

Ideas for Adaptations and Modifications

Use of a Tape Recorder

Record on tape:

- Directions
- Stories
- Specific Lessons

Can help improve:

- Understanding of directions
- Understanding of concepts
- Reading skills

Clarify or Simplify Written Directions

- Underline or highlight the significant parts of the directions.
- Rewrite the directions.

Present Small Amounts of Work

- Tear pages from workbook
- Reduce the amount of work by requesting only certain problems. (i.e. odd problems, problems with a star by them.)
- Provide responses to several items and ask the student to complete the rest.

Highlight Essential Information

If a student can read a regular textbook but has difficulty finding the essential information use a highlight pen on this information.

Change Response Mode

Allow student to:

- Underline answers
- Select from multiple choice
- Sort
- Mark
- Extra space for answers
- Use an individual chalkboard

Written Assignments

- | | |
|--|---|
| ✓ Substitute an oral report or other alternative assignment for written assignment | ✓ Use framed outlines for note taking |
| ✓ Tape record reports or assignments | ✓ Arrange for students to work as partners to develop stories for writing assignments |
| ✓ Dictate assignments | ✓ Use of color coding for-spelling |
| ✓ Shorten assignments | ✓ Permit students to use pictures and diagrams as part of their written products |
| ✓ Allow extra time to complete written assignments | |
| ✓ Write directions in a different color | |

Reading

- | | |
|--|---|
| ✓ Use taped books | ✓ Omit more difficult reading assignments |
| ✓ Use material at student reading level | ✓ Pre-Teach vocabulary |
| ✓ Highlight text | ✓ Use only legible, well-spaced photocopies |
| ✓ Substitute study guide or outline for text | ✓ Don't ask student to read aloud |
| ✓ Shorten reading assignment | ✓ Use assisted or choral reading |
| ✓ Read text to student | |
| ✓ Allow extra reading time | |

Math

- | | |
|-------------------------------------|---|
| ✓ Use graph paper | ✓ Number line, counters or computation charts |
| ✓ Highlight key words in directions | ✓ Use of multiplication tables |
| ✓ Use of consistent math terms | ✓ Shorten assignments |
| ✓ Group problems of same process | ✓ Use of manipulatives |
| ✓ Copy problems for student | ✓ Provide additional practice |
| ✓ Box or circle each problem | ✓ Review key concepts frequently |
| ✓ Read story problems to student | |
| ✓ Use of a calculator | |

Study Skills

- | | |
|--|--|
| ✓ Reduced quantity of material to be memorized | ✓ Use peer proofing |
| ✓ Use of flash cards | ✓ Break long term assignments into steps |
| ✓ Use of mnemonic devices (i.e. FIRST LISTS) | ✓ Use of Triangular Review, Tiny Teach |
| ✓ Develop a system for organizing papers | ✓ Allow a friend to use carbon paper to take notes |
| ✓ Assignment notebook with checking system | ✓ Set up study group |

Technology

- | | |
|------------------------------|--|
| ✓ Colored overlays | ✓ Talking dictionary, word processor, calculator |
| ✓ Screen color / adaptations | ✓ Screen reading system |
| ✓ Closed circuit television | ✓ Electronic note taker |
| ✓ Screen magnifier | ✓ Computer with voice dictation |
| ✓ Screen enlarging software | |

Test Taking

- | | |
|--|---|
| ✓ Provide study guide | ✓ Test review with teacher, tutor, etc. |
| ✓ Read test to student | ✓ Dictated responses on essay tests |
| ✓ Use simple wording and format for test questions | ✓ Flexible time limit for tests |
| ✓ Allow project versus an exam | ✓ Test smaller units of study at a time |
| | ✓ Allow open-book / open-note tests |

**For adapting the curriculum for students
with disabilities, the following should be considered:**

- ☆ Goals and objectives should reflect chronologically age-appropriate skills and activities;
- ☆ Consider student learning styles, appropriate material, and equipment adaptations; and
- ☆ Modifications or adaptations **MUST BE RELATED** to the curriculum being taught to ALL students.

Setting Transition Goals

Many youth with LD leave secondary education with insufficient vocational, functional, or academic skills to be successful in either career entry jobs or post-secondary education (DeFur, Getzel, & Kregel,). Improved transition planning while the students are in high school is critical to ensure that they exit school with the necessary skills and knowledge to acquire the needed supports and services in the community. Establishing transition goals help to provide a framework for the curriculum that students with LD will pursue while in high school and to identify independent living skills that students will need in the community.

- _____ 11. Follows verbal directions
- _____ 12. Follows written directions
- _____ 13. Remains on-task
- _____ 14. Is able to verbalize instructions given
- _____ 15. Ignores distractions

DAILY LIVING: Academic and functional competencies needed to live independently.

Selects, Manages & Maintains a Home

- _____ 1. Selects adequate housing

Buys & Prepares Food

- _____ 1. Plans balanced meals
- _____ 2. Purchases food
- _____ 3. Prepares meals
- _____ 4. Cleans food preparation areas
- _____ 5. Stores food

Buys and Cares for Clothing

- _____ 1. Washes clothing or chooses appropriate alternatives
- _____ 2. Irons and stores clothing
- _____ 3. Performs simple mending
- _____ 4. Purchases clothing

HEALTH AND PHYSICAL CARE: Academic and functional competencies needed to maintain the full range of physical, emotional, and mental well-being of an individual.

Cares for Personal Needs

- _____ 1. Demonstrates knowledge of physical fitness, nutrition & weight control
- _____ 2. Demonstrates knowledge of common illness prevention and treatment
- _____ 3. Demonstrates adequate personal hygiene

Emergencies

- _____ 1. Recognizes emergency situations
- _____ 2. Knows what to do in an emergency
- _____ 3. Selects health care professionals

LEISURE: Academic and functional competencies, interest and self-expression of an individual.

Utilizes Recreation and Leisure

- _____ 1. Knows activities and available community resources
- _____ 2. Uses recreational facilities in the community
- _____ 3. Plans and chooses activities wisely

MOBILITY: Academic and functional competencies needed to interact and travel.

- _____ 1. Demonstrates knowledge of traffic rules & safety practices
- _____ 2. Drives a car
- _____ 3. Demonstrates ability to read and interpret public transportation schedules

MONEY MANAGEMENT: Academic and functional competencies such as budgeting, balancing a checkbook, and insurance planning.

Manages Family Finances

- _____ 1. Identifies money and make correct change
- _____ 2. Plans, uses and adjusts a budget

- _____ 3. Utilizes comparison shopping
- _____ 4. Obtains and uses bank and credit facilities
- _____ 5. Keeps basic financial records
- _____ 6. Files personal income tax
- _____ 7. Understands basic contracts

Insurance Planning

- 1. Identifies resources for insurance
 - _____ a. health
 - _____ b. auto
 - _____ c. personal property
 - _____ d. life
 - _____ e. disability
- 2. Utilizes comparison shopping techniques for insurance
 - _____ a. health
 - _____ b. auto
 - _____ c. personal property
 - _____ d. life
 - _____ e. disability

SOCIAL: Competencies needed to participate and interact in a variety of settings in society.

Personal Interaction With Others

- _____ 1. Speaks in appropriate tone of voice
- _____ 2. Makes eye contact
- _____ 3. Deals with anger appropriately
- _____ 4. Accepts responsibility for actions
- _____ 5. Is able to delay gratification
- _____ 6. Dresses appropriately for occasion
- _____ 7. Expresses affection appropriately
- _____ 8. States disagreement appropriately
- _____ 9. Compromises when needed
- _____ 10. Is honest
- _____ 11. Respects the property of others

Initiates Interaction With Others

- _____ 1. Initiates conversation appropriately
- _____ 2. Greets others appropriately
- _____ 3. Seeks attention appropriately
- _____ 4. Disagrees appropriately
- _____ 5. Initiates apology as needed
- _____ 6. Introduces self to others

Responds to Social Contacts

- _____ 1. Respects "personal space" of others

- _____ 2. Avoids inappropriate gestures
- _____ 3. Takes turns in conversation
- _____ 4. Responds appropriately to teasing
- _____ 5. Manages frustration appropriately
- _____ 6. Responds appropriately to feedback
- _____ 7. Recognizes informal social rules
- _____ 8. Participates in group activities
- _____ 9. Resists peer pressure
- _____ 10. Makes refusals appropriately
- _____ 11. Accepts "no" for an answer
- _____ 12. Responds appropriately to an angry person

WORKPLACE READINESS: Academic and functional competencies and basic work behaviors.

Exhibits Appropriate Work Habits and Behaviors

- _____ 1. Follows directions
- _____ 2. Exhibits collaborative work skills
- _____ 3. Works at a satisfactory rate
- _____ 4. Accepts supervision
- _____ 5. Displays acceptable attendance
- _____ 6. Is punctual
- _____ 7. Produces quality work
- _____ 8. Demonstrates occupational safety
- _____ 9. Works independently
- _____ 10. Demonstrates responsibility
- _____ 11. Demonstrates dependability
- _____ 12. Independently awakens each day in time to meet appointments/maintain schedule

Knows & Explores Occupational Possibilities

- _____ 1. Identifies personal values met through work
- _____ 2. Identifies social values met through work
- _____ 3. Identifies financial value of work
- _____ 4. Is familiar with job clusters
- _____ 1. Identifies job opportunities available locally
- _____ 2. Identifies sources of job information

Selects & Plans Occupational Choices

- _____ 1. Identifies occupational interests
- _____ 2. Identifies occupational aptitudes
- _____ 3. Identifies requirements of appropriate and available jobs
- _____ 4. Makes realistic occupational choices

Exhibits Adequate Physical-Manual Skills

- _____ 1. Demonstrates balance and coordination
- _____ 2. Demonstrates manual dexterity
- _____ 3. Demonstrates stamina & endurance

OCCUPATIONALLY SPECIFIC SKILLS: Academic and functional competencies that would be needed in specific occupations or clusters of occupations.

Obtains a Specific Occupational Skill

- _____ 1. Is cognizant of job specific skills required for career choice
- _____ 2. Selects and enrolls in a college program

Competitive Employment

Student: _____ Date Completed: _____
School: _____ Grade: _____
Completed By: _____

Please Complete using the following code:

- + to indicate mastery of skill listed
- to indicate an area which requires instruction
- * to indicate that assistive technology is needed.

COMPETITIVE EMPLOYMENT

SELF-DETERMINATION: Refers to the individual's ability to act as his or her own advocate.

- _____ 1. Knows where to get assistance when needed
- _____ 2. Asks for assistance when needed
- _____ 3. Can explain own disability
- _____ 4. Can accept disability
- _____ 5. Can describe successful coping behaviors
- _____ 6. Takes responsibility for appointments during school
- _____ 7. Takes responsibility for appointments outside school
- _____ 8. Demonstrates ability to act as own advocate
- _____ 9. Understands need for goals
- _____ 10. Looks at alternatives
- _____ 11. Anticipates consequences
- _____ 12. Knows where to find good advice
- _____ 13. Sets immediate goals
- _____ 14. Sets long term goals
- _____ 15. Is self-accepting
- _____ 16. Identifies and requests appropriate accommodations
- _____ 17. Is familiar with ADA and employment rights

ACADEMIC AND LIFELONG LEARNING: Academic and functional competencies needed to pursue and benefit from future educational and learning opportunities.

Communicates Adequately with Others

- _____ 1. Reads at a level needed for future goals OR knows how to get needed help
- _____ 2. Writes at a level needed for future goals OR knows how to get needed help
- _____ 3. Speaks at a level needed for future goals OR knows how to get needed help
- _____ 4. Makes local telephone calls
- _____ 5. Responds appropriately to incoming telephone calls

- _____ 6. Uses a pay telephone
- _____ 7. Accurately records telephone messages

Lifelong Learning

- _____ 1. Identifies community resources
- _____ 2. Possesses critical and creative thinking skills
- _____ 3. Obtains and analyzes data and information
- _____ 4. Follows problem solving strategy
- _____ 5. Makes decisions
- _____ 6. Evaluates consequences and outcomes
- _____ 7. Obtains internal and external feedback
- _____ 8. Is self-motivated
- _____ 9. Demonstrates qualities of initiative, perseverance, determination, responsibility, accountability and flexibility
- _____ 10. Follows verbal directions
- _____ 11. Follows written directions
- _____ 12. Remains on-task
- _____ 13. Able to verbalize instructions given

Career Development

FIGURE 2-3
Relevant Assessment Questions for Career Development

Awareness Phase

- What is work?
- What is a job?
- What are some jobs you know about?
- What kind of work do people do on these jobs?
- What have you dreamed of doing when you finish school?
- What kind of job do you want?
- Where do you want to live, and with whom, when you are grown up?
- Why do people work?
- Why do you want to work?
- What do you enjoy doing when you are not in school?
- What jobs do your mother, father, and other family members have?
- What types of things do they do on their jobs?
- What is college?
- Why do people go to college?
- What is vocational training?
- What is public transportation?
- How would you get where you want to go if your parents did not drive you?
- What is voting?

Exploration Phase

- What jobs are you interested in visiting?
- What exploratory courses would you like to take in school?
- What hobbies do you have?
- What activities do you do in your spare time?
- What volunteer or community service work do you do?
- Did you enjoy your summer job?
- What parts did you like best?
- Do you like being inside or outside better?
- Do you prefer being with other people, or do you enjoy being by yourself?
- Do you enjoy working with your hands and with tools, or do you prefer to solve problems in your head?
- Did you get along well with your classmates? If so, why did you? If not, why didn't you?
- What skills do you have that you can use in these or other courses?

Preparation Phase

- What courses do you need to achieve your career goals?
- What skills will you need to gain entry into those courses?
- How will you prepare to live on your own?
- Will you need to take courses during high school and after?
- Will these courses lead to college courses?
- Does the school have a tech prep program?
- Do you and your family plan for you to attend college?
- Will you gain the skills needed to succeed in college?
- Will you be able to get a job based on your high school and/or college coursework?
- Does the educational program provide job placement and support?
- Can you gain entry into an approved apprenticeship program?

Assimilation Phase

- Can you continue your training and education after you begin employment?
- Does the employer provide educational benefits?
- How can you advance within the company?
- Can you transfer between departments in the company?
- Does the employer offer a good retirement and benefits package?
- Do you have alternatives to pursue if your employer has to downsize or lay off workers?
- Do you have options for continuing education, even for leisure interests?
- Can you transfer your job skills and a vocational skills to other employment?

FIGURE 2-2
Career Development Checklist

Career Awareness

- Can identify parents' and other family members' jobs.
- Can describe what parents and others do on their jobs.
- Can name and describe at least 10 different occupations.
- Can describe how people get jobs.
- Can describe at least three jobs to investigate.
- Can discuss what happens if adults cannot or do not work.
- Can identify why people have to get along with each other to work.

Career Exploration

- Can discern the difference between a job and a career.
- Can identify three ways to find out about different occupations.
- Can state at least three things they want in a job.
- Can identify the steps in finding a job.
- Can identify at least three careers they want to explore.
- Can state preferences for indoor vs. outdoor work, solitary work versus working with others, and working with their hands and tools/machines versus working strictly with their minds.
- Can identify how to get applications and how to complete them.
- Can discuss why interviews are important.
- Can identify their strengths, abilities, skills, learning styles, and special needs regarding work or specific jobs.

Career Preparation

- Can identify career/vocational courses they want to take in school.
- Can describe the educational and work requirements of specific careers and jobs.
- Can identify where education and training can be obtained.
- Can explain steps in acquiring the skills necessary to enter a chosen field or job.
Can describe entry level skills, course or job requirements, and exit level competencies to succeed in courses.
- Can identify community and educational options and alternatives to gaining education and employment in a chosen field.
- Can identify the worker characteristics and skills in working with others that are required in a chosen field or job.

Career Assimilation

- Can identify steps to take if they want to advance in their place of employment.
- Can identify educational benefits and ways of gaining additional training through their employment.
- Can explain fields that are related to their current work in which they could transfer.
- Can identify ways to change jobs without losing benefits or salary.
- Can describe appropriate ways of leaving or changing jobs and companies.
- Can relate their skills to other occupations or avocations.
- Can explain retirement benefits.
- Can identify and participate in leisure activities that they can pursue after they retire.

Assessing Self-Determination

Assessing IEP Self-Determination Skills

IEP Preparation

1. Does the student understand the purpose of the IEP meeting?
2. Can the student explain the law guaranteeing his or her rights and requiring the IEP?
3. Does the student know who will be attending the IEP meeting?
4. Who does the student want to invite to the IEP meeting?
5. Does the student know what roles the IEP participants will play?
6. Has the student reviewed current assessment information?
7. Has the student developed a list of personal goals to share at the meeting?
8. Has the student developed a list of questions to ask at the meeting?
9. Has the student practiced expressing his or her interests, preferences, and strengths?
10. Is the student prepared to ask for instructional and/or curriculum accommodations?

IEP Performance

1. Did the student know who was in attendance at the IEP meeting and their roles?
2. Was the student able to express his or her interests, preferences, and abilities?
3. Did the student express his or her personal goals and aspirations?
4. Did the student ask relevant questions?
5. Did the student request appropriate accommodations (if needed)?
6. Did the student express personal responsibility for goal setting and attainment?
7. Did the student facilitate or co facilitate the IEP meeting?
8. Is the student satisfied with the IEP meeting outcomes/results?
9. What does the student think could have been done to improve the meeting?

IEP Implementation

1. Does the student attend class on time?
2. Does the student request instructional support when needed?
3. Does the student request testing accommodations when needed?
4. Does the student assume responsibility for successes and failures?
5. Is the student aware of and working toward IEP goals?
6. Does the student believe he or she is receiving the support needed to reach IEP goals?
7. Has the student explored post-secondary options and support services?
8. Can the student explain which post-secondary options match his or her goals and needs?
9. Has the student developed a plan and timeline for contacting adult service providers?

Assistive Technology **Assessment**

ASSISTIVE TECHNOLOGY ASSESSMENT

Until IEP team members become familiar and comfortable with various assistive devices and strategies, it may be advisable to have assessments conducted by someone outside of the school district who specializes in assistive technology. When a comfort level is established and assistive technology is being used by students with cognitive impairments, district personnel may be able to assess other students using the available devices. IEP team members should still consider independent assessments for those students who present unique needs that have not been met using the district's existing assistive technology. Outside assessments will also help team members to stay abreast of new developments and technologies that can help students maximize their potential.

School districts should consider designating appropriate staff to be assistive technology resources. This might be a school psychologist, an administrator, a special education teacher, or other staff that show an interest and the ability to identify and advocate for assistive technology.

As part of each school district's technology plan, the ability of students with disabilities to access input and output must be addressed. A representative from special education, who knows the assistive technology needs of special education students, should be involved on the district's technology planning committee. If some or most of the technology needs for special education students can be paid for under the district's technology plan, more equipment and resources can be made available than by trying to fund high tech assistive technology under the special education budget. Compatibility will be improved and retrofitting expenses will be greatly reduced.

Possible Funding Sources for Assistive Technology

1. School District
2. Title XIX if medically necessary
3. Vocational Rehabilitation
 - If employment-related
 - Can purchase from school when student graduates (3 year depreciation)
4. Family purchases
 - DakotaLink loan program
5. Used equipment - DakotaLink's Equipment Connection

Assistive Technology and Adaptations

All students could benefit from the types of services offered through Special Education:

- An annual Individual Education Plan meeting with the student, parents, educators, and other stakeholders coming together to formulate long term plans with the student.**
- Learning employability skills and trying out different jobs
- Addressing and teaching independent living skills
- Identification of strengths, weaknesses, and interests
- Identification of assistive technology and adaptations that can increase learning

Students without cognitive impairments usually benefit from many of the assistive technologies and adaptations that are listed on the following pages. However, one student's convenience item may be assistive technology to a student with cognitive impairments. For example, a word processing program may be a convenience that helps the "A" student to marginally improve neatness and quality of writing, but the same program may be an essential assistive technology to the student with a cognitive impairment who struggles with dysgraphia, grammar, and spelling.

READING

Large Print for individuals who have trouble tracking while reading

Colored overlays

Straight edge

Books on tape for pleasure reading (Available through libraries and bookstores) Text books on tape

Text books on CD-ROM (Very limited availability at present)

The main advantage over books on tape is that one disk can hold the same information as 50 or more audio cassettes. A disk can also be searched to find a specific page, topic, or key word. Another advantage over books on tape is that a student using a screen reading program can follow along with the text on the screen to improve his/her reading skills.

Reference books on CD-ROM

Books on CD-ROM for pleasure reading

Screen reading programs which convert text to speech

"Reading machines" consisting of a scanner, optical character recognition software, a word processing program, and a screen reading program. Printed information including textbooks, magazines, or virtually any document can be scanned into a word processing program. Screen reading software can then read the document out loud to the student using synthesized speech. Most programs come with built-in dictionaries, adjustable speed, and text hi-lifting capabilities. These reading machines can help students improve their reading skills, improve their comprehension of written assignments, and reduce staffing costs.

Video cassette recordings covering topics in science, social studies, literature, and other reading

Intensive subjects may be purchased with textbooks or borrowed from libraries. Videos provide a welcome change of pace for all students, and can greatly increase learning for students with reading disabilities.

Videos on CD-ROM (Some of these are interactive)

MATH

Graph paper for students who lack the fine motor skills to keep numbers in columns

Calculators may help students to focus on the math concepts instead of struggling with calculations

Talking calculators

Budgeting software and checkbook balancing software

Customized spreadsheets tailored to the students' needs

Multimedia software and games for math drills (e.g. Add/Subtract/ Multiply/ Divide)

WRITING

Dictionary

Spell checking devices

Grading for content as opposed to grading for penmanship, grammar, and spelling

Use of a standard word processing program to improve the quality of written assignments

(spell check, grammar check, word prediction, and printing features)

Writing legibly, spelling, and using correct grammar are difficult for many students with cognitive impairments. Using a word processing program will help many students to minimize their deficits and to improve the quality of their writing.

Becoming proficient with a word processing program also improves overall computer literacy.

Voice recognition software (speech to text)

Keyboarding vs Voice Recognition

Most students with cognitive impairments have difficulty in processing information from the written page and then typing it quickly and accurately using a computer keyboard.

Transferring thoughts directly into a word processing program via a keyboard may also prove frustrating and time consuming. A keyboarding class can help students with cognitive impairments to become familiar with computers, but learning to use voice recognition software for information input may better serve the student in the long run.

Several companies are releasing new generations of voice recognition software that will minimize the need for keyboarding skills. Improvements in this software and advances in hardware have made it possible for many individuals (including doctors and lawyers eliminating the dictation to transcription process) to verbally input information into a word processing program at a rate of 160 words per minute with 95% or greater accuracy. Spell checking, homonym identification, and grammar checking are built into most of this software.

Voice recognition software is not the answer for all students with cognitive impairments. An assessment or trial run is advisable before purchasing a program. Individuals train the software to recognize their speech patterns and intonation by reading specified text into the program. Poor reading skills makes it difficult for some students to train the software to their speech patterns and to successfully utilize a continuous speech recognition program. These students may have more success using the older discreet speech programs than the new continuous speech programs.

These programs work best for individuals who have clear speech and have access to computers with a bare minimum of 200 mhz processing speed and 32 megabytes of RAM. Error correction is still cumbersome, better interfaces with other software are in

process, and overall user friendliness is steadily improving. New generations of software and hardware will make it easier for students with disabilities to benefit from voice recognition programs.

The cost for this type of software varies, but some of the best programs can be purchased for less than \$150, and prices should continue to decrease. Many of the new programs can accommodate multiple users. Installation of the programs is also becoming simpler. Microsoft will probably incorporate voice recognition software into one of its next generations of the Windows and NT operating systems.

NOTE TAKING/LECTURES

A mini cassette recorder to tape classroom lectures

Instruction on how to take notes

A copy of the instructor's lecture notes or overheads

Copy of class notes from another student proficient in note taking

Classroom assistant's notes or a condensed study guide summarizing key information

Use of chalkboard or overheads to reinforce key information

Use of demonstration and examples when teaching new materials

Overview provided before starting the lesson

Follow-up by instructor to gauge understanding

TEST TAKING

Test to find out what the student has learned and not to see how well the student takes tests

Instruction on how to take different types of tests

Practice tests and study guides

Spec Ed teacher's assistance to help instructors identify, accept, and develop alternate test formats

Alternate format tests (e.g. multiple choice as opposed to fill in the blank, eliminate scanned answer sheets, complete a project to demonstrate knowledge)

Elimination of test questions with double negatives and trick questions in general

Shortened tests

More frequent testing over smaller amounts of material

Extra time for tests

Testing outside of the regular classroom

Testing on a computer

Open book or open note tests

Tests on audio or video tape

Oral tests

Scribe to record answers

Speak answers into a tape recorder

Modifications for state or district-wide achievement testing are to be addressed at IEP meetings

ACT allows for extra time, readers, and other accommodations (with disability documentation)

ORGANIZATION and MEMORY

Establish routines

Day Planners

Checklists (e.g. steps to turn on a computer and find a specific program or document)

Electronic organizers

Tape recorders to record assignments, events, thoughts, etc.

Taking notes and putting them into pockets works well for some students

Course syllabus and outline (extra copies for home and case manager to monitor progress)

Written schedules or printed assignment lists

Pictorial lists

Assignments designed to improve memory and organization

Instructional software designed to improve memory and organization

COMMUNICATION BETWEEN PARENTS AND SCHOOL

Homework/Message notebook that student takes home and then brings back to school

E-Mail messages since teacher and parent schedules frequently conflict

Mutual respect and understanding

Answering machine or voice messaging at both home and school

CONCENTRATION

F/M (short-range radio) headsets for lectures (minimizes auditory distractions)

Headsets for multimedia computer learning activities

Multi-media activities, games and presentations

Sit near the front of class, sit away from windows and doors (fewer visual distractions)

SCHEDULING

Schedule difficult classes at the time of day when the student functions best

Avoid scheduling too many difficult classes in a row or during one semester

Consider course substitutions if the student will benefit (i.e. consumer math instead of algebra)

Student's learning styles should be identified to develop optimal instruction techniques

STANDARD COMPUTER HARDWARE and SOFTWARE AS ASSISTIVE TECHNOLOGY

Computer applications are designed to assist all people with improved functioning in the areas of organization, memory, time management, writing, manipulating and summarizing numerical data, researching, communicating with other people, and productivity. Since students with cognitive impairments struggle in many of these areas, learning to use existing and developing technologies is critical for these students. The cost of computer technology continues to decrease.

Computers are increasingly being used as INDEPENDENT LEARNING TOOLS that allow a student to set their own pace in a particular study or skill area. The relatively low cost of computer technology, as compared to the cost of an instructional aide, is starting to become apparent to some educational administrators. Computers can help students to experience more success in school, and more importantly, can help students to maximize their independence in the adult world.

COMPUTER LITERACY

All students are expected to possess basic competencies in various computer applications at high school graduation. Word processing, data entry, spreadsheet, database, reference disk, internet, and e-mail skills are expected by most employers and post-secondary schools. The lack of basic computer competencies is becoming akin to having disability in itself.

The best transition plan will not prepare a student for adult life without the availability of many high quality options for implementation. There are several important components to consider in the implementation of a student's transition-focused IEP. These include special education services in high school settings, meeting graduation standards through general education, and School-to-Work activities.

Transition Check List

Planning for Learning After High School

Can the student and family do the following?

- _____ Describe your disability out loud and explain what you do because of your disability?
- _____ Describe your learning styles out loud?
- _____ Demonstrate independence by writing some of your own IEP goals?
- _____ Learn about your civil rights and the responsibilities of high schools and colleges under Section 504 and the Americans with Disabilities Act?
- _____ Select classes with parent input that will prepare you academically for college or vocational/technical school (e.g. word processing, public speaking, study skills)?
- _____ Self-advocate with parents, teachers, and peers? Describe:
- _____ Try out accommodations and auxiliary aids that teachers deem appropriate (e.g. taped textbooks, note takers, extra time on exams)?
- _____ Learn how to talk to teachers since they don't give you anything that you don't ask for?
- _____ Know how, when, and where to discuss and request needed accommodations?
- _____ Manage your study time well?
- _____ Attend college/career events in your district?

Recreation and Leisure

- _____ Enroll and participate in a recreation/leisure class in the community?
- _____ Learn how to plan recreation and leisure activities (where, when, cost, transportation)?
- _____ Practice healthy fitness habits?
- _____ Join a club or organization?

Living Options

- _____ Explore future living options
- _____ Talk with others who have been through the transition of moving into another setting?

Personal Living Skills

- _____ Develop housekeeping, budgeting, and cooking skills?
- _____ Develop math, and reading skills you will need as an adult?
- _____ Develop skills needed to solve problems with others?
- _____ Learn about your health care needs?
- _____ Learn how to open a bank account, write a check, budget money?
- _____ Identify the changes in your legal rights and responsibilities for when you turn 18?

Your Transition IEP Checklist
