About Aetna Medicare Rx offered by SilverScript

The plan is offered by SilverScript Insurance Company, which is affiliated with CVS Caremark®.

Plan Costs

This section includes information about your monthly premium, annual deductible (if any), and cost-sharing amounts during the Initial Coverage Stage for Aetna Medicare Rx offered by SilverScript. Although most members do not reach the Coverage Gap Stage (Stage 3) or the Catastrophic Coverage Stage (Stage 4) during the plan year, a summary of your costs in those stages is also included.

Monthly Premium

Your coverage is provided through a contract with your former employer/union/trust. Your plan benefits administrator will let you know about your plan premium, if any.

Medicare Part D Drug Payment Stages

All Medicare Part D prescription drug plans have drug payment stages where drug costs may vary. You move through each stage based on the amount either you or the plan spend on prescription drugs. See the following section for information on the Medicare Part D drug payment stages. The Part D *Explanation of Benefits (EOB)* and other plan materials include additional information on the four drug payment stages.

Stage 1: Deductible Stage

Because you have no deductible, this payment stage does not apply to you.

Stage 2: Initial Coverage Stage Cost Sharing

During the Initial Coverage Stage, you pay a portion of your drug costs, and the plan pays its portion. The following tables show what you pay until your total yearly drug costs reach \$4,430. Total yearly drug costs are the total drug costs paid by both you and Aetna Medicare Rx offered by SilverScript. You may get your drugs at network retail pharmacies or through the mail-order pharmacy.

Which drugs are covered?

To find out if your drug is on the formulary (list of Part D prescription drugs) or about any restrictions, call Customer Care (phone numbers are printed on the back cover of this booklet). You may also request a copy of the complete plan formulary or access it online at MyDocumentSource.MemberDoc.com.

Please note: King Philip Regional School District provides additional coverage that may cover prescription drugs not included in your Medicare Part D benefit. For more information about your share of the cost or which prescription drugs may or may not be covered, please call Customer Care (phone numbers are printed on the back cover of this booklet).

The following categories are included in your non-Part D supplemental benefit:

- Erectile Dysfunction

To view the medications in these categories, visit aetnamedicare.com/SupplementalBenefitPDP.

Generic drugs are paid at the lowest generic cost share, and brand drugs are paid at the Preferred Brand cost share. Some covered drugs may have additional requirements or limits on coverage. These requirements and limits may include step therapy, prior authorization or quantity limitations.

How will I determine my drug costs?

Aetna Medicare Rx offered by SilverScript groups each medication into one of four tiers. Use your formulary to find out the tier your drug is on to determine how much it will cost you. The amount you pay depends on the drug's tier and whether you are in the Deductible (if any), Initial Coverage, Coverage Gap, or Catastrophic Coverage Stage. As you move from stage to stage, the amount you and the plan pay for your drugs may change. If the actual cost of a drug is less than the normal copayment or coinsurance for that drug, you will pay the actual cost, not the higher copayment or coinsurance.

Which pharmacies can I use?

More than 66,000 pharmacies with over 23,000 preferred pharmacies nationwide make up the pharmacy network. These include retail, mail-order, long-term care and home infusion pharmacies. To find a network pharmacy near your home or where you are traveling in the United States or its territories, call Customer Care (phone numbers are printed on the back cover of this booklet), or visit Caremark.com.

You generally must use a network pharmacy in order to receive full benefit coverage on your prescriptions. You may get drugs from an out-of-network pharmacy in an emergency, but you may have to pay the full cost (rather than your normal share of the cost) at the time you fill your prescription. If you use an out-of-network pharmacy in an emergency, we will reimburse you your total cost minus your copay amount for the drug. You must submit a paper claim in order to be reimbursed.

Please note: After the mail-order pharmacy receives an order, it typically takes up to 10 days for you to receive your prescription drug. Specialty pharmacies fill high-cost specialty drugs that require special handling. Although specialty pharmacies may deliver covered medicines through the mail, they are not considered “mail-order pharmacies.” Therefore, most specialty drugs are not available at the mail-order cost share.
