

"I like knowing my medical costs ahead of time."

With Harvard Pilgrim's online treatment cost estimator, you can plan for your health care expenses before you visit the doctor—and help manage your out-of-pocket costs.

Read on for more details.

Key features

Search: Enter a medical procedure, type of visit or procedure code provided by your doctor's office

Save: Print your estimates or save them for future reference

Filter: Narrow or expand your search results by location, specialty, gender, hospital affiliation and more

Learn: Read about specific medical treatments you may need

Compare: Weigh your options by comparing cost and quality ratings for multiple providers and facilities

Where you receive medical care can determine what you pay. For example, the cost of a common surgery can vary at two different hospitals, even if the same doctor is performing the procedure. An X-ray or MRI at one facility may cost much more than at another facility. Even the cost of a sick visit may vary among doctors.

Don't wait until you get the bill to know your costs

Prices are generated by HealthTrio and Harvard Pilgrim. They are personalized estimates and may not reflect the actual total price. The estimates are based on the details of your Harvard Pilgrim plan as of today. If there is not enough cost information available for your specific plan, the pricing you see will be based on the experience of a wider range of Harvard Pilgrim plans. In these cases, the amount shown may be less accurate than a cost estimate based on your specific plan. Also, the actual cost may differ if you receive additional services, your coverage changes, or the provider bills the service differently. It's important to note that you should not rely only on this or any other price estimate to make your health care purchasing decisions. Please note that some services may require a referral from your primary care provider or prior authorization before you receive the service. See your plan documents for more details.
